PROFESSIONAL SUMMARY

Motivated Frontend Developer and BS Software Engineering student at Islamia University Bahawalpur (GPA 3.4/4.0), passionate about crafting visually compelling and user-friendly web applications. Hands-on experience building real-world projects during an internship using HTML5, CSS3, and JavaScript. Strong foundation in software engineering principles, responsive design, and UI development. Eager to contribute to forward-thinking teams and grow into advanced frontend technologies including React.js.

INTERNSHIP EXPERIENCE

Frontend Developer Intern

May 20, 2025 – May 28, 2025

Code Alpha — Remote Internship

- Developed a fully responsive **Image Gallery** web app using HTML5, CSS3, and JavaScript, featuring dynamic image rendering and a clean grid-based layout optimized for multiple screen sizes.
- Designed and built a **Personal Portfolio Website** showcasing projects, skills, and contact information, applying modern UI principles to deliver a professional and engaging user experience.
- Created a functional **Calculator application** with pure JavaScript, implementing arithmetic operations and error-handling for edge cases such as division by zero.
- Delivered all three projects independently within the internship timeline, demonstrating strong time management and end-to-end frontend execution skills.

PROJECTS

Image Gallery

HTML5 · CSS3 · JavaScript

- Built a responsive photo gallery using CSS Grid and Flexbox, adapting seamlessly across desktop, tablet, and mobile viewports.
- Implemented dynamic image rendering and hover effects to enhance visual interactivity and user engagement.

Personal Portfolio Website

HTML5 · CSS3 · JavaScript

- Designed a multi-section portfolio (About, Skills, Projects, Contact) with smooth scrolling and clean typography.
- Applied semantic HTML5 markup for improved accessibility and SEO-friendly page structure.

JavaScript Calculator

HTML5 · CSS3 · JavaScript

- Developed a fully functional calculator supporting addition, subtraction, multiplication, and division with a responsive UI.
- Handled edge cases including division by zero and chained operations through robust JavaScript logic.

SKILLS

Frontend Languages:	HTML5, CSS3, JavaScript (ES6+)
Frameworks & Libraries:	ReactJS (learning), Bootstrap
UI & Design:	Responsive Design, CSS Flexbox, CSS Grid, Cross-browser Compatibility
Developer Tools:	Git, GitHub, VS Code
Core Competencies:	Problem Solving, Research, Attention to Detail
Soft Skills:	Communication, Time Management, Self-directed Learning

EDUCATION

BS Software Engineering

Nov 2023 – Present

Islamia University Bahawalpur | GPA: 3.4 / 4.0

- Maintaining a strong GPA of 3.4/4.0 with coursework in Software Engineering, Data Structures, Web Technologies, and Object-Oriented Programming.
- Applied academic knowledge through hands-on projects and a frontend internship completed during the first year of study.
